

Levels of Consciousness: World Leaders - July 2023

The souls of world leaders.

Below are the average levels of consciousness (Dr David Hawkins' Scale of Consciousness from 0 - 1000) for some of our more prominent or pioneering leaders, as at July 2023.

Please note that the readings that were not possible obtained the following results:

- *Levels of consciousness zero - negative*
- *Level of consciousness more than zero - negative.*
-

We would typically see this kind of reading when the soul has left the body. However, since there have been no reports of the deaths of any of the above, we don't understand these results. There are several potential explanations, but since this is not a political website, we do not wish to investigate this further.

This month Cyril Ramaphosa joins the list of those who do not resonate for level of consciousness. Significant changes with Vladimir Putin dropping to 842 from 932 in May. Viktor Orbán of Hungary has seen his levels of consciousness increase by nearly 100 up to 762 and Xi Jinping has also increased by nearly 100 to 466 from 363 in May.
