

Levels of Consciousness: World Leaders - May 2023

The souls of world leaders.

Below are the average levels of consciousness (Dr David Hawkins' Scale of Consciousness from 0 - 1000) for some of our more prominent or pioneering leaders, as at May 2023.

Levels of Consciousness: World Leaders - May 2023

- Joe Biden, USA (reading not possible)
- Donald Trump, USA: 891
- Justin Trudeau, Canada: (reading not possible)

- Rishi Sunak, UK: (reading not possible)
- Emanuel Macron, France: 0
- Olaf Scholz, Germany: (reading not possible)
- Angela Merkel, Germany: (reading not possible)
- Volodymyr Zelensky, Ukraine: 0
- Vladimir Putin, Russia: 932
- Viktor Orbán, Hungary: 676
- Xi Jinping - China: 363
- Anthony Albanese, Australia 14
- Chris Hipkins, New Zealand 435
- Kim Jong-un, North Korea: (reading not possible)
- Cyril Ramaphosa, South Africa: 624

Please note that the readings that were not possible obtained the following results:

- *Levels of consciousness zero - negative*
- *Level of consciousness more than zero - negative.*

We would typically see this kind of reading when the soul has left the body. However, since there have been no reports of the deaths of any of the above, we don't understand these results. There are several potential explanations, but since this is not a political website, we do not wish to investigate this further.

For the past few months we have seen significant variation in light levels for some leaders including Viktor Orban, whose levels this month seem to have settled. However Cyril Ramaphosa still seems to be finding his level and we have witnessed his levels of consciousness wavering from 641 (November 2022) to 687 (January 2023) and back down to 638 (March 2023) to the current levels of 625 (May). These kinds of fluctuations seem to be occurring frequently during our Ascension as we often struggle to hold all of our new light levels.

Vladimir Putin's levels have increased again by around 30 points up to 932 as he continues to experience a further rise in consciousness.
