

Levels of Consciousness: World Leaders - November 2022

The souls of world leaders.

Below are the average levels of consciousness (Dr David Hawkins' Scale of Consciousness from 0 - 1000) for some of our more prominent or pioneering leaders, as at November 2022.

- Cyril Ramaphosa, South Africa: 641

Please note that the readings that were not possible obtained the following results:

- *Levels of consciousness zero - negative*
- *Level of consciousness more than zero - negative.*

This month you will see that Kim Jong-un is now also in this category. We would typically see this kind of reading when the soul has left the body. However, since there have been no reports of the deaths of any of the above, we don't understand these results. There are several potential explanations, but since this is not a political website, we do not wish to investigate this further.

Please see our Article Not Everything is As it Seems: People that lists other well known people whose levels of consciousness do not resonate, despite being seen in the public eye.

The notable changes this month are in Viktor Orbán of Hungary and Cyril Ramaphosa of South Africa.
