Pocock Design Solutions
14451 Chambers Road, Suite 210
Tustin, CA 92780

Attn: Tim Pocock

Dear Mr. Pocock,

It is my great pleasure to provide you this letter recommending Pocock Design Solutions, for any upcoming mechanical design and consulting projects.

As for the skills and capabilities of your firm, I can only describe them as sublime and unsurpassable. It remains without question, your delivery method is without failure and the attention to detail enables a good contractor to achieve greatness. At Empyrean Plumbing, Inc. our methodology is unique because we always approach a job with the end in mind. Your design augments our comprehensive planning ability.

Sometimes the best way to convey your passion is through the work in which we are employed. The quality and ownership displayed in each project we've worked together on, virtually eliminates the errors and omissions commonly seen by other engineering firms. Your bound sets should be an inspiration and a standard to your industry.

A quality firm such as Pocock Design Solutions not only minimizes the change orders due to lacking information, but often times demands a discount at bid time knowing the completeness of such design work.

Working with Pocock Design Solutions has brought our firm invaluable experience and success over the years. We look forward to working with Pocock Design Solutions on future projects and highly recommend their vast experience to any team.

Respectfully,

David Koralewski
