

MAY 02,2018

LOW VOLTAGE LIGHTING SYSTEM-WS

Date; ___ / ___ 2018

Client name _____ Address: _____

Cell #: _____, Office; _____

Will need the following; Site analysis form, day time views for potential light placement location. Evening visits to property to look at potential locations, plus other areas that need to be lighted. Check views inside and outside of house/windows. Check neighborhood lighting, HOA/city local rules/laws concerning night-lighting. Be respectful of neighbors, infringement of possible light on their property.

ATS, will be lighting; Walls, Trees, Shrubs, Specimen Plants/statuary, walls, house, pool, landscape beds, porch front, porch back, side yard, walkway, driveway, arbor, outdoor living space, playground, trampoline, security areas, boogeyman spook spots.

Down lighting is more natural, ok to hang lights from gutter fascia board, soffit, use downspouts/gutters to run wires, tree mounts for lights, tree staples, lumber mount.
