## The new YAM Inflatables – perfect companions for any scenario

After more than 20 years of reliable and practical performance across Europe, Yamaha has decided to fully redesign the YAM inflatable boat range. While taking a sturdy, no-frills approach, we have created a clean and modern design with great features to offer high-quality inflatable boats at an affordable price.

The new YAM range offers a wide collection of great value-for-money inflatables. Strong and durable, yet light and easily foldable,

their smooth design makes storing and carrying your inflatable boat a breeze. With over 20 years of experience and the signature approach of Yamaha offering the highest quality possible, our new YAM boats are built to support your days out on the water for a long time. These lightweight miracles provide heaps of joy and convenience for leisurely activities and are perfectly suited for professional use, as well.

Naturally, Yamaha has tested every YAM model extensively together with the relevant Yamaha Outboard Motors and Electric Drives – to create the best possible package bound to win the hearts and minds of YAM owners around the world.

**These little runabouts  
are always ready**

## YAM 200T / 240T

For getting out on the water with the minimum of fuss and effort, there's no better choice than the YAM 200T or the YAM 240T.

These tough little runabouts are ideal for small boat tender duties and just for enjoying being on the water. You can inflate or pack it away in minutes using the high-speed air pump included, while the lightweight slatted floor simply rolls up – and your YAM is easily stowable in a boat locker, car boot or even a cupboard at home.

Use the strong aluminium oars, with their easy-stow tube clips and sturdy rowlocks – or fit a Yamaha outboard or electric drive. Either way, you'll be delighted with one of these stylish little runabouts.

### Proven match to Yamaha Electric Drives

Our Tender-series YAM inflatables are made a great combination with the Yamaha Electric Drives. The quiet, clean and easy to use and maintain package works especially great as tender. Of course, our Yamaha engineers have designed and tested these boats to also be a perfect match for our small outboards motors.

### Light, compact but strong slatted floor

Our Tender-series inflatables have a unique slatted floor, which makes the boats even smaller and easier to fold-away. This especially is the case for our smallest boat, the YAM 200 T. Of course, the tenders are designed to remain stiff and strong when inflated and in use.

### Instant boating enjoyment

All YAM Inflatables come with everything needed for instant boating enjoyment. The strong carrying bag is convenient for stowing your YAM in a car boot or on a roof rack – and the floor, seat and fittings are all very simple to install. A powerful air pump is also supplied, so your YAM will be ready to go in a matter of minutes.

### Built to take care of you

While designing the YAM boats, our designers always kept the end-user on top of their mind – trying to make the usage as simple and safe as possible. Our ingenious high-quality air valve is a good example – exceptionally reliable and airtight. It's easy to operate and is flush with the surface of the tube, preventing snagging or discomfort, while we added the maximum pressure in writing next to the valve, so you are always sure about the pressure you should apply.

A great way to  
have fun on water

## YAM 240STi / 275STi / 310STi-V

Why not get out on the water with a YAM STi, where your fun will come with added comfort? This is mainly thanks to the double-wall inflatable floor, which is extra rigid and very comfy on the feet. An STi is also, like every YAM model, super-simple to inflate, carry, use and store.

Top performance is assured – with even the smallest Yamaha outboard – and handling is remarkable, with excellent control and stability from the special inflatable keel and V-hull design.

Strong D-rings and lifelines are provided, as well as a secure, integral tankholder. The PVC-coated transom is reinforced with a special support section for a Yamaha outboard. All you have to do is enjoy yourself.

### Comfortable inflatable floor

At the heart of every STi model you'll find our unique and very clever inflatable floor and keel. A complex web of cross-stitching in the air chamber prevents distortion and keeps the surface rigid – promising you the most comfortable, smooth and stable ride of any inflatable you've ever tried.

### Built to take the pressure

A cleverly designed air baffle system is incorporated into the hull tubes of all YAM inflatables. This not only helps to keep the individual chambers completely sealed for safety, it also helps maintain and equalise air pressure throughout the tube. The STi-series boats come with a pressure gauge to assure a proper inflated hull and floor.

### Inflatable V-hull (310STi-V)

Our largest YAM Sports tender, the 310STi, has a unique V-shaped inflatable hull. While it offers the same amount of comfort as the other STi-series, it adds extra rigidity to the hull and a deeper V – improving the handling and making this top-end model perfectly matching the larger Yamaha outboards.

### Built to last

For maximum strength and good looks, all YAM inflatables are constructed using the latest generation PVC material, with most seams and joints thermo-welded for optimum watertightness and safety. The result is a smart, clean exterior surface that is highly resistant to abrasion, salt water and sunlight.

Truly Sports-minded  
inflatables

## YAM 275S / 310S / 340S / 380S

For maximum fun afloat, there's nothing like a YAM Sport. Ideal for camping trips, water sports, family holidays, lake cruises or just exploring the coastline.

Because these tough, sporty inflatables are also smart and stylish, they're a great choice as the tender to a larger boat, whether sailing yacht or motor boat. From the smallest 275S up to the highly capable 380S, these boats handle easily and are designed for more serious work too.

So if you're looking for a boat that's easy to manoeuvre and will tackle family adventures with ease –towing donuts and other toys – yet be equally at home as a stable fishing, diving or work boat, then a YAM Sport is made for you.

### Built to last

For maximum strength and good looks, all YAM inflatables are constructed using the latest generation PVC material, with most seams and joints thermo-welded for optimum watertightness and safety. The result is a smart, clean exterior surface that is highly resistant to abrasion, salt water and sunlight.

### Built to take care of you

In addition to safety features like strong, secure grab-handles, seat patches, D-rings, lifting eyes and other fittings, comfort is also a top priority. The dedicated storage straps for the oars are a perfect example – different from many other inflatables, YAM boats have the oars stored neatly out of the way so you can sit comfortably on top of the tubes. The black PVC transom covering makes it even more resistant to wear and tear and to UV-light, increasing its durability.

### Rigid, aluminium deck

The slated aluminium deck of the S series gives these YAM boats additional rigidity and stability both at rest and when underway. The solid, level deck is also easy to load to, and additional D-Rings help to secure any cargo or luggage.

### Safe & Secure

The YAM S-Series boats come with a strong strap to secure the fuel tank to the aluminium floor – Out of the way and providing extra safety for the people on board.

## Take the adventure further

Yamaha's approach to our branded sports and leisure gear, toys and accessories, has always been the same. Before we allow anything to carry that name, it must prove itself every bit as well designed, tough and reliable as our world-beating powered products. So you can be sure the latest Yamaha line-ups of clothing and sports gear featured here have been very carefully chosen, to add a new dimension to your fun days out.
