

## Social Justice versus True Justice

We have had far too many years of division, blame, and a frustrating lack of leadership in DC. In a recent fundraising mailer from Senator Tammy Baldwin, she highlights her sexuality in the first few lines, it seems because that is more pressing than the business of the American people. I do not care to know anything about her sex life, so long as it is no longer taxpayer funded. I simply ask why her whole justification for her being a Senator surrounds her life in the bedroom while ignoring the real needs of America? We have out of control spending with a debt that is rapidly approaching thirty-four TRILLION dollars, yet she advocates for expensive programs that she says will guarantee equity. We have global unrest with a lack of clear vision or foreign policy, yet friends and colleagues of Senator Baldwin protest and sing out with joy when longtime allies of the United States are attacked and murdered. We have economic uncertainty with the Democrats sowing division rather than working to improve our infrastructure or our supply lines or supporting the jobs that are the backbone of our nation's economy. And Tammy Baldwin and her party focus more on what they term 'social justice' and identity politics than on real issues like education, transportation, and the well-being of our families.

Let me explain. The Dems shout Black Lives Matter and incite hatred and division, rather than addressing why so many black families are hurting. May I ask, where has all the money gone that was donated to BLM? Do the mansions and lavish lifestyle for the BLM founders do anything to help black families who wish more for their kids? These SJW legislators literally cheer when violent activists burn down buildings and use illegal guns to loot stores owned by hardworking families. Then left tries to take away gun rights of LAW-ABIDING AMERICANS pointing to gun violence. Why wouldn't they tackle why crime and violence are so high in many parts of their home districts? Far easier to scare Americans and lie about the real cause of crime and violence. Tammy and company indoctrinate victimhood rather than reward and promote entrepreneurship and innovation. If everyone is a victim, then nobody is responsible. The left works to raise taxes rather than trust Americans how to spend our own hard-earned money. They seek to destroy family and community rather than support those who build and treasure it.

The SJW movement favors policies that put filth in our classroom curriculum and classrooms instead of allowing parents to decide what books their kids should read. They ask our daughters to change in front of and compete against biological boys and men rather than celebrating the uniqueness and amazing qualities that define what we women are. And while we're talking about women, I cannot understand how Tammy or the left can claim to be feminists yet build their identity around hating women? Let's ask Tammy to wiggle her way out of that! They create culture wars with special privileges for a select few while encouraging hatred against you if you aren't a member of one of their special sub-categories. As a kid, I grew up learning that hating someone based on their skin color is called racism. Today, it is proudly displayed by the left as Social Justice. Our nation is deteriorating because of the American-hating policies of the left. It is time for a serious discussion, and some action.

This is why I am running to be our next US Senator. You and your family deserve better. The people of Wisconsin deserve better. The American people deserve better. We will do better.

As I travel around Wisconsin, I speak with parents and grandparents who fear what our future holds for the next generations. My daughter and all the sons and daughters will live in the future of our making, whether we just let it happen, or whether we create and protect it. I choose to protect and fight for it. I

look forward to visiting with you as I travel Wisconsin, getting to know you and your family and friends. We must build a Conservative Republican team that will say no to Tammy Baldwin and her leftist comrades and send this 'social justice' agenda packing from our nation's Capital.

So that brings us to true justice. What is it? How does it work in our Republic? True justice is where every person has an opportunity to succeed. This doesn't mean giving a head start to someone because of their skin color. True justice is holding everyone to the same standard regardless of their racial makeup, who they date, or if they are a man or a woman. This politically correct narrative the left is trying to force feed America must be replaced with truth, must be exposed through facts, and must never become the mainstream that supplants the cornerstone of our way of life.

I am asking that you forward this message to your friends and neighbors so I may introduce myself. Please join me so that we may begin this righteous fight against that which aims to destroy our Republic.

Stacey Klein  
US Senate Candidate
