

Let's Go Green 6.2

BY NATALIE LERNER

Thirteen years ago, Graham and Randi Schooley launched the green6.2 race. The race took place in the heart of City Centre and became the first of many races the Schooleys would host across the Greater Houston area under their company, the Houston Running Co.

The green6.2 is the third race in their Holiday Houston Series and falls during Earth Week. It has maintained an environmental and sustainability tie in year after year as well. Past tie in projects include planting trees, purchasing tree saplings, and even recycling shoes and technology. Growing from 200 racers to over 2,000 runners, the race has become a beloved local tradition.

The race was forced to take place virtually for the past two years, but this year on April 16th at 7:30am the race will return to in person—a welcomed turn of events for sure! Make note that the whole family is welcome too! A10K, 5K, KidsK and Family Walk will all be available. Plus everyone gets a t-shirt and matching finisher medal to take home! The Top 5 Males and Females Overall and Top 5 Male and Female Masters for the 5K and 10K will also receive awards.

To join in the fun and find out more information on this or any of the other events in the series, visit <https://www.houstonrunningco.com>.
