## Testimony Tidbits

Some Testimonies from Graves into Gardens Young Adult Retreat:

*Worship was amazing. By far the best worship experience I've had in a very long time.*

*By far the most beautiful worship I've ever been apart of. We opened up the heavens praising YHVH*

*Wow. Where to even start. Our worship leader so was spirit filled and led it was incredible. I don't think there was a person in the room who didn't feel the spirit moving during worship time. I, as well as everyone I talked to really appreciated that the following the schedule wasn't the most important thing, but letting the spirit move was.*

*I loved the teachings. They were very informative and applicable to daily life, both in the physical and spiritual*

*Loved the down to earth honesty, tough love, and scripture incorporated into each teaching from each speaker. Very well done*

*The table groups were good and I liked that it helped us get to interact with other people.*

*Loved my group leader very wise and patient. Loves the people I met, very insightful*

*Everything was well done and I would gladly recommend the retreat to others.*

*It was an honor and a privilege to learn from all of you! I'm excited to see what is in store for the next one!*

*I'm def coming back!!*
