

PATH TO
YOUR **DREAM PG**
Every student is our priority

OUR SAGA

Our saga began a decade and a half ago, in the heart of Thrissur, when Dr. Aswath Kumar, a Pioneer in PG- entrance coaching decided to orient his students, in achieving their goal. Since its beginning, MedPG has always bagged more than 10% of all top 1000 ranks in the then AIPGME, and now, NEET-PG.

We have toppers in almost every year, but our focus is not on the top ranker's. We believe every student has the right to achieve his/her dream PG seat. Because of our unique approach, a student previously accessed to be average bags the dream PG seat.

An exam always has a syllabus and if there is a syllabus it can definitely be cracked! The effort and the path to this will be different for each candidate, our experience has taught us that even an average student can succeed with the right guidance and optimum learning environment.

The question asked, in the end, is not your rank but it is whether you achieved your dream PG. And, we, at MedPG, we help you realize your goal coaching you through the hurdles to achieve it.

- **Every student can succeed, with passion and the right guidance.**
- **The key is to study smart, we help you plan your learning.**
- **Remember: Rank is just a number, the goal is to achieve your dream PG.**

- **Mentorship and individual attention**

- **24*7 reading room facility**
- **Integrated mess / In-campus dining**
- **Recreational activities with gym & play area**
- **Class curated by experts**

TESTIMONIAL

I am extremely happy to be a part of the MEDPG family. Dr Benson Benjamin is a great mentor. There were times when I would lose confidence, lose motivation during my NEET-PG prep days. Dr Benson is very friendly to all students and you can reach out to him if you have issues during any phase of your preparation. Overall I am very happy about my decision to study at MEDPG. It's located away from the city and has a lot of greenery around. I feel it provides an ideal study environment. Thanks to Dr Benjamin and the entire MEDPG team.

MEDPG Coimbatore provided us with one of the most student and study friendly atmosphere. Initially I was very apprehensive about the same, but the faculty entrusted to guide us and give us an overview about all the subjects for this highly competitive exam surpassed my expectations; taking us through all the high yield content and providing us with really helpful study material. Over all, it was a really good experience. I would highly recommend enrolling in MEDPG for any Post grad aspirant out there.

Nuzair Ansari
MEDPG STUDENT

Was very glad that I got the opportunity to study there. It had a great impact on my way of studying and progression of rank. We had top faculties from all over India and had printed personalized notes for every subjects by respective faculties and that was one core source of information. Every line of that books were mcq point of view so it really helped me a lot. They also provide free subscription to Pre PG app to do mcq's and test series. U can call the coordinators freely at any time and they are very friendly to address your queries. Rapid session of classes, the books and the app is more than enough if u have that will power to study and score a good rank.

After joining MED PG Kochi, two main things which have been brought into my account are guidance and perseverance. I really like the way how time table for classes are being set and how amicable the attitude of teachers and staff are during any query. The approach towards teachers concerned is not a difficult task. MED PG made us feel like family, I firmly believe that has definitely helped me increase my productivity. There were definitely one or two minor short comings but frankly speaking when what this Institute has given me, everything else can be ignored and dusted. In the end it's me who has to give my 100% on a regular and consistent basis and definitely MED PG has pushed me and held my hand through out my journey in doing the same... Joining this institution is a stepping stone towards by success... HURRAY TO MED PG FAMILY....

Dr Shreya Sreenivasan
MEDPG STUDENT

PG entrance exam coaching here in MedPG Cochin helped me to bring a positively drastic change in my attitude towards studies & my outlook towards solving MCQs. They provide good live face-to-face classes with some of the highly experienced faculties, concise & excellent study materials & exam series. Good & safe residential facilities with calm, peaceful & distraction free environment for studies. They have a friendly & approachable management.

I choose MedPG after considering the available options in Kerala and Karnataka, because of the faculty list and the no of students (as I was not interested in being one in a huge auditorium as my class concentration span was less) and the previous reviews by friends.

OUR COURSES

NEET-PG | INI-CET Program (Regular)

Comprehensive residential, face-to-face classroom classes by the best faculty in India! 24x7 reading halls, guidance and focused peer-to-peer learning ecosystem.

NEET-PG | INI-CET Crash Program

Residential, face-to-face crash program! The student can stay on our campus and study till the NEET-PG exams. The classes and sessions focus of NEET-PG & INI-CET PYQs and PYTs of last 10 years.

Guided Revision Program (GRP)

The residential revision is a program that summarises the last 10 years' topics and concepts of NEET-PG and INI-CET exams. Schedule-based test series and grand test along with a reading room and accommodation for PG aspirants.
