a b o u t u s

Al-Bassami Group company was established in 1982 and since its inception the company has contributed to the development of the industrial sectors and infrastructure of the kingdom of Saudi Arabia through the services it provides that reliable and multidimensional.

Currently, Al-Bassami Group company is taking the lead in implementing major projects and actively contributing to the construction of its kingdom of Saudi Arabia, especially after the launch of the kingdom of Saudi Arabia 2030 vision, which one of its first concerns is to work on developing the infrastructure to keep pace with the huge economic transformation.

In addition to its importance and effective role within a leading company in the completion of major construction projects at the level of the kingdom and the entire gulf region, Al Bassami Group corporation has assumed a prominent position as contracting company - approved by many distinguished clients. By the mean to the reputation, excellence and efficiency of its services, the company continues to expand the scope of its achievements and expertise in the field of construction, and its use of modern and more advanced industrial technologies.

Al-Bassami Group company is also distinguished by its ability to meet all customer requirements according to their desired aspirations thanks to the company extensive technical expertise & in-depth understanding and knowledge of the local market, the human capital and man power that they contain.

Al Bassami Group guarantees the abundance of resources that enable it to do and complete the most demanding and difficult project.

Our Vision

The successful planning, perfect implementation credibility and high quality are our works criteria to enhance our leadership to become the best provider of integrated services in the field of contracting and trades.

Our Goals

Is the provide urban and suburban residential real echemes in the western region and across different kingdom infrastructure services in required quality and price competition.

Acquisition of land areas to work in collaboration with residential cities aspiring investors.develop and provide it with all infrastructure services.

Expansion of concrete and steel and the introduction of modern low-cost construction techniques to help low-income and entering competition on state enterprises and parastatals special.

Horizontal expansion in the field of contracting by increasing the volume and quality of business emanating from the group to provide the required resources in the project and comete in local and regional markers “concrete plants ,asphalt, block plants, quarries”.

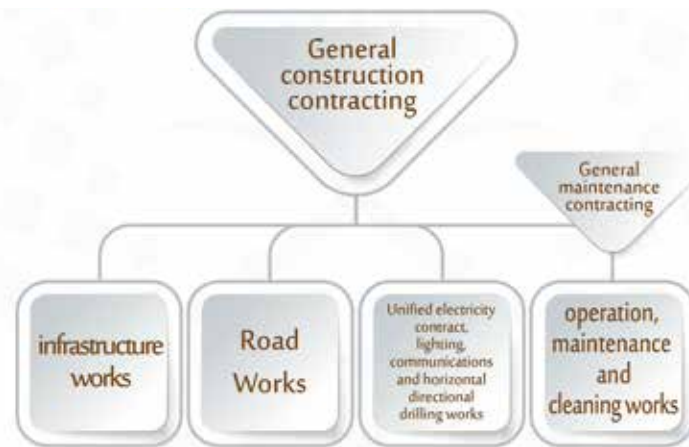

Leading Projects

Our Company is characterized by the breadth and diversity of its business during the previous period, which gave it distinguished experiences in many areas of general contracting.

As a general contractor, we provide engineering and construction services in industrial, commercial and infrastructure projects to public and private clients across the Kingdom.
