

# CLEAN LIGHT™

## UV-C Light Technology Proven to Kill Covid-19 & other Pathogens

---

We have implemented the use of CleanLight technology into our practice to ensure the safety and health of our patients & staff members.

### **CleanLight Air:**

Disinfects and purifies the air

Eliminates micro-organisms that are present in the air

Provides protection against disease

Improves air quality

Purifies enclosed areas

Reduces inhalation allergies

An effective tool against viruses, bacteria, molds, dust-mites, pollen, cigarette smoke, harmful gas and odours

### **CleanLight Pro:**

The CleanLight Pro's UV-C light is directly administered to items and surfaces to kill pathogens and micro-organisms and prevent the spread disease.
