Page	Reference	Instructions	Significant Change
		<p>We provide these instructions to help charter schools (charters) prepare the Charter School Annual Financial Report (AFR). Within the forms, blue font indicates that an instruction is linked to that specific line. The instructions button links to any general instructions or to the first instruction for a page. To return to the related forms after reviewing the instructions, simply click on the form's tab at the bottom of the Excel screen or press the Alt and back arrow keys.</p>	
		<p>The AFR presents condensed financial activity (i.e., beginning and ending balances, revenues and expenses, and budget to actual comparisons of expenses for the fiscal year) of the Charter for comparison purposes. This information assists sponsors, charter governing boards, administrators, ADE, legislators, other governmental agencies, and taxpayers in determining whether charters are meeting their stewardship responsibilities.</p>	
		<p>The Charter should complete the Cover, School listing, and Accounting data tabs first. This file has been designed to populate most amounts automatically based on provided accounting data. The Charter must manually enter amounts to the nearest dollar in the orange highlighted cells. Do not enter information in the shaded areas or protected cells and do not change formulas. Charters must follow all instructions to ensure uploaded files will pass validation checks.</p>	
	<p>General</p>	<p>All actual revenues, expenses, and account balances presented on the AFR must agree with the Charter's accounting records as of June 30, 2023. Revenue and expense account codes used in the AFR agree with the <i>Uniform System of Financial Records for Arizona Charter Schools</i> (USFRCS) Chart of Accounts. Charters that are exempted from all or part of the USFRCS in accordance with A.R.S. §15-183(E)(6) must use an accounting system that allows them to report financial data in the AFR standard expense types and functional uses. See the USFRCS Chart of Accounts for more information on project, function, and object codes and descriptions at https://www.azauditor.gov/reports-publications/charter-schools/manuals-memorandums. Charters should ensure their budget amounts agree to their most recently revised or adopted FY 2023 budget that was submitted to ADE.</p> <p>Revenues must include cash receipts through June 30, 2023, and accrued revenues received after the end of the fiscal year. Examples of accrued revenues are cost reimbursement and entitlement programs, interest earned on investments, and FY 2023 Classroom Site Project revenues.</p> <p>Expenses consist of all expenses incurred during the fiscal year, including expenses for goods and services received on or before June 30, 2023, but not paid for by that date. Examples of items requiring such treatment are included in the USFRCS, pages VI-G-8 and 9.</p> <p>Alerts will appear on the cover page and throughout the form when areas of the AFR are not completed or do not appear to be accurately reported. The alerts will disappear as they are resolved. Detailed descriptions of the alerts, as well as guidance on how to resolve the alerts, can be found on the Alerts tab. Charters should complete all areas of the AFR that apply to their operations, whether or not the item is listed in the alert. These alerts do not replace the need for a separate employee to review the AFR for accuracy and completeness. Charters should ensure that no alerts remain on the cover page before uploading the files.</p>	
<p>Cover</p>	<p>Name, county, CTDS number</p>	<p>The charter name, county, and CTDS number should be entered on the cover page of the AFR. The CTDS number should not contain any slashes, dashes, etc., and must be exactly 9 digits. Zeros should be entered to fill the school portion of the number on the cover page. This information will be automatically transferred to other sheets in the file.</p>	

School listing tab	Name, county, CTDS number	<p>Enter school-level information for each school within the Charter including school names, school CTDS numbers, and unweighted attending student counts. As school names are added to the tab, the primary unit code cell for that school will shade red until a primary unit code is entered, as described below. The CTDS numbers in column C should not contain any slashes, dashes, etc., and must be exactly 9 digits. Use 100th-day (or 200th-day) student counts to report each school's unweighted attending student count in column D. Charters can refer to AzEDS AMD-15 Report.</p> <p>Enter the applicable unit code(s) in column E used to code expenses at the school level for each school, as well as the unit code(s) used to code expenses to the Charter and private schools. If more than one unit code was used for a school, separate each unit code with a comma. For example (100, 101, 102).</p> <p>Charters must assign a 3-digit primary unit code in column F for each school as this data will be used in the School-Level AFR. Formulas within the School-Level AFR are set to assign only one unit code to each school, charterwide, and private schools, if applicable. The comments column can be used for additional information to describe the unit codes and primary unit codes.</p>	
Accounting data tab	General	<p>Charters must complete the Accounting data tab within this workbook. Charters will use the data from the Accounting data tab to complete the AFR and school-level reporting.</p> <p>Charters must copy their accounting data from their accounting records and paste the data into columns A through G in the Accounting data tab within this file. When pasting data, select "Paste Options:" and choose "Values (V)". Paste data into cell A2. Do not copy any column headers into the Accounting data tab or paste over any column headers within the tab.</p> <p>Charters should filter on the data elements in columns A through E and select the appropriate project, program, function, object, and unit for each line item from the dropdown list provided in columns H through L to report within the AFR. If a cell has not been assigned a value, the cell will be highlighted in red. When complete, the form should not have any red highlighted cells in rows with charter submitted data. Any blank rows will remain red highlighted.</p> <p>Charters should select "1310-1399-COVID-19 Federal Relief Projects", "1227-ARP-IDEA Preschool", and "1228-ARP-IDEA Basic" from the dropdown list provided in column H for all expenses and revenues from COVID-19 federal relief projects.</p> <p>Charters must assign expenses for Project 1071—English Language Learner and Project 1072—Compensatory Instruction to the following program codes, as applicable, to automatically populate on page 6:</p> <ul style="list-style-type: none"> •260—English Language Learners incremental costs •430—Pupil transportation-ELL incremental costs •265—English Language Learners compensatory instruction •435—Pupil transportation-ELL compensatory instruction <p>Other Federal Projects 1310-1399 must be identified as COVID-19 and non-COVID-19 related projects.</p> <p>Expenses for function 2700—student transportation must be coded to program codes, as applicable, to automatically populate on page 2, line 29:</p> <ul style="list-style-type: none"> •400—Pupil transportation •430—Pupil transportation-ELL incremental costs •435—Pupil transportation-ELL compensatory instruction <p>Data with improper codes will highlight yellow. The form should not have any yellow highlighted cells when submitted.</p>

Note: If the Charter's policy is to include land, buildings, and related improvements; site improvements; or equipment costing less than \$5,000 on the capital assets list, these items should also be included. The sum of lines 1, 2, 3, and 4 should agree with the amount recorded on the Charter's capital assets list as of June 30, 2023.	
6	Section D— Investment in capital assets, line 6	Enter the total cost of construction in progress as of June 30, 2023. This amount is not recorded on the capital assets list as of June 30, 2023.

9	General	<p>ADE will use the information included on this page to complete the National Public Education Financial Survey (NPEFS) and Form 33 issued by the National Center for Education Statistics. All charters are required to submit NPEFS data, which is used to calculate a State per pupil expenditure amount that is used in the formula for allocating a number of federal program funds to states and local education agencies, including Title I, Impact Aid, and Indian Education. Other programs use State per pupil expenditure data indirectly because their allocation formulas are based, in whole or in part, on State Title I allocations. The NPEFS and Form 33 data is also used by researchers and government policymakers to address important education policy and research issues.</p> <p>Report all amounts from Projects 1000 through 1999 on this page. Do not include principal payments.</p> <p>If the charter has a negative amount in cell G25 (supplies from State and local sources), the negative amount is likely from an adjustment made to recognize spending from Child nutrition program revenues reported in the afr23-food service.xlsx file as federal spending rather than State and local spending where the Food Service Project is initially reported. If there is a negative amount in cell G25:</p> <ol style="list-style-type: none"> Note the amount of the negative balance and add that amount at the end of the formula in cell G25 (for example "+200") to clear the negative. Then you must subtract that amount in total (for example "-200") at the end of the formula(s) for one or more of the other State and local spending cells (D25 through F25 or H25 through K25), without creating a negative balance in any of those cells. Finally, to complete this adjustment, add the adjustment amount(s) from step 1 above to the applicable federal source columns by object code in cells D24 through K24. 	
9	Property disbursements	Property disbursements should include actual payments made during the year for capital acquisitions, not including related capital lease or other debt service payments. All other property disbursements for these programs should be included in function 4000.	
9	Property disbursements by type	Property disbursements for buildings should include only disbursements for the purchase of existing buildings. All disbursements for construction services for buildings and building improvements (whether or not construction is in progress at year-end) should be included on the construction line.
