

Kitchen Killer

First victim was male, bald
Tied up, on his knees,
His scalp - fiercely grated like
A large block of cheese!

Second chap was 51,
Just like pre-mashed mash,
I'm his head with force was thumped -
BASH! BASH! BASH! BASH! BASH!

Up next, young bloke, 22
Gobby, hardly shy,
Did not see it coming when
Forked hard in each eye!

30-ish big fat man was
Victim number 4:
Carving knife - electric - sliced...
Crimson coated floor!

Fifth was a young chavvy git
Known as Freddy Fender;
His head like a bunch of fruit
Smoothed fast in the blender!

Number 6, unlucky lad,
Sharp neck-slicing scenes
Saw his throat veins opened up -
Like a tin of beans...

7 - he EXPLODED! Well,
His head did - huge blast
In the microwave: such mess...
He was not the last...

Long haired greasy feller was
Next: his head caved in;
Bumpy like a tatty - smashed
With a rolling pin!

Small bloke, blonde hair, bright blue eyes
Soon would face defeat;
At 200+ degrees
He would feel the heat...

All these males slaughtered, but
"Why?" you may well think...
Well - oh, I forgot the one
Who drowned in the sink:

Fairy Liquid up his nose,
Bubbles out his ears;
Lots of pain-filled gurgles heard
(But no visual tears).

Yes, these fellers murdrredy;
Kitchen killed! When dead -
Disposed of most slowly, in-
Fact: chopped... ripped to shreds...

Blocked disposal unit was
No prob for The Boss,
Who - with "their" left-over skin
His teeth - he would floss.

A great chef he was, until
One sad, fateful day -
Stitched up by "the gang"; poor taste,
And sent on his way.

I've heard that McDonald's are
In one branch now short...
If his next job is with *meat*
Soon - I might report...
