

## Balloon Inflators and Accessories

**PRECISION**

IMPERIUM™ Balloon Inflators by Preece Precision was founded specifically to design and manufacture the highest quality balloon inflation equipment, at reasonable prices. We believe that no decorator, balloon sculptist or retail store employee should have to sacrifice quality or performance, for affordability. This is why IMPERIUM products are the most competitively priced, highest performing products in the industry today.

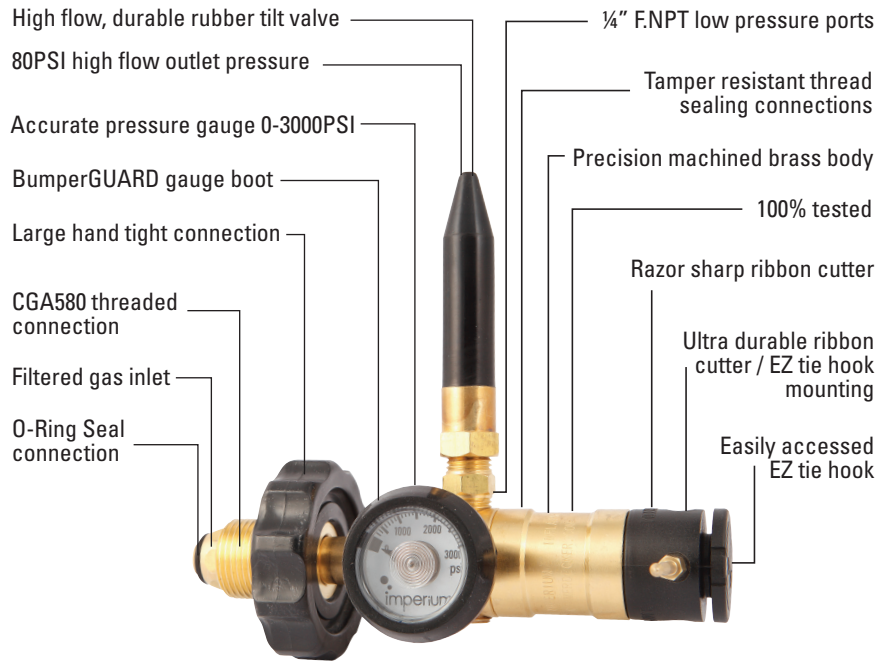

It's PARTY TIME! No matter what the occasion, Balloons Are Everywhere! IMPERIUM™ Balloon Inflators are the answer for small decorating jobs and the largest corporate events. Simplistic in design, superior in quality, and best of all economically priced. Imperium insures a customer years of defect free service.

- 100% Tested.
- Two-year warranty against manufacturer defects.
- All IMPERIUM Balloon Inflators are supplied with SuperSEAL™ o-ring connections.
- Crafted from solid brass bar stock with minimum moving parts for bulletproof reliability.
- Designed for CGA580 Helium service, 0-3000 PSI cylinder service pressures.
- Inlet filters keep contaminants out. One more step towards defect free service.
- IMPERIUM Balloon Inflators are assembled with tamper resistant sealing compounds assuring end user safety.
- IMPERIUM Balloon Inflators utilize durable low profile gauges with unique BumperGUARD™ protection.
- Customer specific design, private label & bar coding available.

- BR3858GSH** Gauge, ribbon cutter, E-Z tie hook

All IMPERIUM balloon inflators  
are shipped with retail bar coding.

# DELUXE

## BR3855 SERIES

Product Number BR38xxGSH

Our most popular model – The PRIMELINE™ Deluxe incorporates all the features as the entire line with an added extra. All retail stores cannot be without the IMPERIUM compact, auto shutoff foil balloon attachment. Just slide the foil balloon over IMPERIUM's brass push valve, it shuts off when the balloon is at capacity. Save on costly balloon damage due to user error.
