### **WHO WE ARE:**

### **WHAT WE DO:**

- **REDEMPTION SOLAR AND ROOFING** stands as a seasoned leader in the roofing and solar sector, boasting over **5 years** of invaluable experience, offering more than just expert guidance. We ensure a smooth fusion of roofing and solar power for your residence, business, or anything in between. From seamless integration to comprehensive consultations aimed at identifying and implementing holistic solutions, our commitment goes beyond mere installation, elevating the overall energy efficiency of your property.
- Elevate your commercial property with our unique energy storage solutions, offering a seamless power supply, stabilizing energy fluctuations, and ensuring uninterrupted operation during grid outages. By incorporating backup battery storage, we bolster the resilience of your energy infrastructure.
- Our committed teams and supervisory personnel engage in weekly training sessions to enhance their skills. We enhance safety protocols using cutting-edge materials and construction techniques, guaranteeing the durability and dependability of your commercial roofing and solar installations.
- By leveraging efficient project management, we ensure the swift and seamless deployment of services, minimizing disruption to business operations. Proactively identifying potential issues allows for timely intervention, minimizing downtime and ensuring that roofing and solar systems operate at peak efficiency.
- We set the benchmark for durability in the field by utilizing state-of-the-art materials capable of withstanding challenging weather conditions. This guarantees the long-lasting dependability of your roofing and solar investments.
- We offer a 5-year workman warranty, emphasizing our steadfast commitment to quality. This unparalleled warranty program is crafted to provide you with peace of mind, ensuring that your roofing and solar investments are protected for years to come.
