

Nanotechnology Reduces Friction and Heat in Stamping.

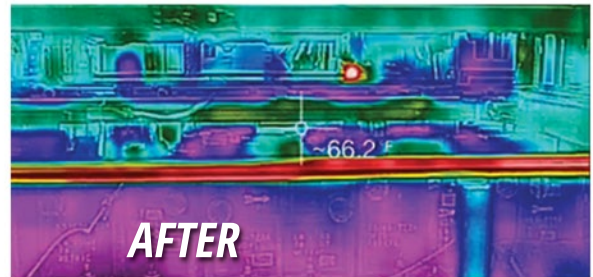

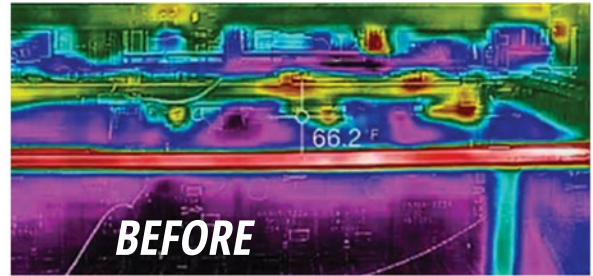

Extend your tools, dies, and coatings with our 3900 Series Compound!

- *Less Friction and Less Heat in Stamping*
- *Stellar Performance on AHSS and Aluminum*
- *Eliminates Excess Oil Rejects - Clean, Dry Film*
- *Performance Equal to Oil - Without Oil*
- *Safer, Cleaner, Drier Press Environment*
- *Significantly Extends Tool Coating Life*
- *Weld Over Without Pre-Washing*
- *Resists Staining on Galvaneal Material*
- *Decreases Galling and Scrap Rate*
