

Nanotechnology Stamping Compound in the Pressroom Cuts Paint / Coating Costs.

- Absorbs Mill Oil For Easy Removal Prior To Paint
- Enhances Paint Adhesion - For Consistent Coverage
- Less PreTreatment Chemical Usage
- Does Not Generate Foaming Issues In Cleaning Bath
- Easy Removal, Even In Ambient Cleaning Baths
- NO WASHING REQUIRED prior to welding
- Approved By One Of The Largest Pre-Treatment Chemical Suppliers In The World!
- Increase Part Quality through Minimizing Galling and Scouring on Parts
