

Products For All Applications

At Consultant Lubricants, we offer no-cost consulting services to our clients in the metalworking industry. Our staff of experienced professionals utilizes a combination of on-site analysis, in-house chemist, laboratory resources, and blend-to-order capabilities to create solutions to increase production efficiencies and solve production problems that are guaranteed to increase your profits.

Machining Coolants and Cutting Oils

Boring	Grinding	Turning
Broaching	Grooving	Reaming
Chamfering	Hobbing	Honing
Deburring	Milling	Lapping
Drilling	Tapping	

Drawing, Stamping, and Forming Compounds

Blanking	Press Fitting
Coining	Punching
Cold Heading	Rolling
Drawing	Stamping
Forging	

Pre-Treatment, Specialty, Finishing Compounds

Cleaners	Corrosion Inhibitors	Reaming
Coatings	Rust Prevention	Honing
Sealers	Specialty Greases	Lapping
	Anti-spatter	
	Degreasers	

Die Casting and Foundry Compounds

- Multi-Metal Die Casting
- Ceramic Mold and Ladle Coatings
- Plunger Lubricants
- Machining Fluids
- Heat Transfer Oils
- Trim Die / Press Lubricants
- Heat Quenching
- Column Guide Grease
- Vibratory Finishing Compounds
- Custom Formulations

**Guaranteed To Significantly
Reduce Your Total Operating Costs.**

Guaranteed On-Time Delivery.

**Advanced Chemistry
+
Improved Production
=
Increased Profits.**

**Advanced Nanotechnology
Stamping Compound**

- Anti-Galling Interface
- Improves Quality
- Tooling Protection
- Corrosion Resistant
- Weld-over Ability
- High Lubricity
- Low Viscosity
- Automotive Approved

**Extreme Performance
Vanishing Oil For Stamping**

- Ideal For All Metals
- Anti-Galling Interface
- Higher Flash Points
- Corrosion Resistant
- Scrap Reduction
- Reduce Die Wear
- Minimal Residue
- Operator & Eco-Safe

**Advanced Semi-Synthetic
Long-Life, Soluble Oil
CNC Machining Coolant**

- Excellent Solubility
- 1-2 Year Sump Life
- Low-Foaming
- Rejects Tramp Oil
- Bacteria Resistant
- Minimizes Residue
- Low Consumption
- Operator & Eco-Safe
- Coolant Analysis Tests

**Advanced Synthetic
CNC Machining Coolant**

- Clean Circulation
- 1-2 Year Sump Life
- Low-Foaming
- Rejects Tramp Oil
- Bacteria Resistant
- Minimizes Residue
- Low Consumption
- Operator & Eco-Safe
- Coolant Analysis Tests
