Operations Director Administrative Report

12/06/2023

- **Re-Tubing of the boiler has begun and should be completed by next week.**
- **There is new lighting on the outside of buildings throughout the district. We are switching from the conventional bulb style light to the more energy efficient LED style. We still have more to go but have changed quite a bit.**
- **This week starts the bridge project for Luna Pier. We have the plan in place on how the routes will change and have informed all the parents of the changes.**
