Operations Director Administrative Report

02/07/2024

- **Water inspections after retubing of the boiler and all related heating work, shows we are getting 82% of our make up water back. We have gone from 10,000 gallons a day down to 1400 gallons a day.**
- **The roof project by the pool area where we had leaks has been completed and no reported leaks yet.**
- **Transportation has been quiet for the month.**
