

Mike Valentine

Operations Director Administrative Report

5/07/2023

- **Busy summer with multiple repairs, upgrades, and improvements. On that list is to have the press box done before the All-Star football game on the 23rd of June.**
- **The freezer for the kitchen will be going in on June 12th after the long wait to receive it and then coordinating its installation around school hours.**
- **This has been a challenging year with Transportation. There have been retirements, new hires, field trips, sickness and more. I am extremely proud of our team of drivers for always being on board for what was asked of them. I am also very grateful for the job Katelyn has done this year and since she has started this position.**
