Medical Provider _____ Phone _____

Insurance Information _____

Child's Dentist _____ Phone _____

What types of allergies or other health problems does your child have, and what do we need to know to provide the best possible care? Do these restrict your child's activities?

My signature gives permission for the following:

In an emergency, the child care facility has my permission to call an ambulance or to take my child to any available physician or Salem hospital at the child's parent expense and to obtain medical treatment for my child. In most emergencies, 911 are called and child is transported to nearest hospital and seen by Dr. on call. (Parents are always notified as soon as possible.)

I understand and agree that I would be financially responsible for any medical treatments necessary.

I have full understanding that every attempt will be made to contact the parent or guardian in the event medical treatment is necessary. I understand that certain medical emergencies may not allow much time for contact of parent/guardian and that if a life-threatening situation arises immediate medical attention will be sought by provider/center.

My child may be given non-prescribed medication as indicated on the container, including sun screen, children's pain reliever, antibacterial first aid cream, and diapering ointment. Syrup of ipecac may be administered if deemed necessary by the poison control operator. (We will contact parents prior to administering non-prescription pain relievers. Prescription medications must be current and require permission slips for each medication.)

Photo Release

My child may have permission to have their photo taken if the occasion should arise for publicity, news, website, facebook, newsletters, business flyers, and text messages or craft purposes. I understand these photos will not be sold or distributed without my knowledge or permission. Photographs are taken on different occasions such as birthdays, holidays and special occasions and sometimes used for arts/crafts projects, and various other things.

___yes ___no - **initials**

My child may have permission to be videotaped if the occasion arises such as during field trips.

___yes ___no - **initials**

Water Play

My child may have permission to participate in water play. This may include: sprinklers, water tables, slip and slide and splash pad.

___yes ___no - **initials**

Signature _____ Date _____

We appreciate your help in updating these forms regularly to keep the most current information and emergency contacts for your child. We want to work together in meeting your child's needs and encourage you to talk with us whenever necessary.

Child Illness and Injuries Policy

Children who are ill are not to be brought to the center. The following are examples of children who are ill:

- A temperature of 100 degrees F. or higher,
- Vomiting or diarrhea has occurred in the past 24 hours,
- A contagious disease such as chicken pox, strep throat or pink eye, **presumptive, potential or positive SARS-COVID**
- An unidentified rash,
- Has a constant, thick, colored nasal discharge,
- Parasites must be treated prior to re-entry to care (lice, ringworms, scabies, etc.).

If a child should become ill while at the center, parents will be contacted immediately. Sick children will be isolated in our sick bay and made as comfortable as possible. Children should be picked up within thirty (30) minutes. If the child is not picked up within thirty (30) minutes, the emergency contact person on the child's enrollment form will be called. Parents who cannot be reached in an emergency or do not come get their sick child will receive **1 warning** and the **next time this occurs; care will be terminated on the spot.** **If you believe this may prove a difficulty for you, please let staff know who the primary contact should be for these situations.**

Children sent home sick will remain home the following day AND be 24-hour symptom free, have been appropriately treated or have been given medical approval to return to child care. Medical approval specifically means a doctor's or PAC's note which has a handwritten signature, readmittance date and the nature of the illness or injury as well as contact information in case we need further information OR a screenshot of the child's MyChart (or similar) indicating directions from the doctor. Symptom free means the child has returned to their normal energy level, eaten a normal meal and is not lethargic or still displaying symptoms of illness.

Please be aware of the fact that when you bring a truly ill child into daycare, you risk infecting all of us with whatever your child has and no one appreciates it when this happens. It is your responsibility as the parent to care for your sick child. Additionally, other families won't appreciate your child sharing his/her germs. Be respectful and mindful of this fact and we'll all get along fine.

WE will report all communicable diseases including SARS-COVID, when required, to the local health department and to parents of all enrolled children. Parents of all enrolled children WILL be notified when their child has been exposed to an illness other than a communicable disease.

WE HAVE NOT been authorized by the licensing agency to provide care for mildly ill children. This means WE may NOT care for children who have a common, temporary illness that is non-progressive in nature and is not considered a communicable disease by the Dept of Health. For example, children with a mild cold or upper respiratory illness may be cared for. However, children who are in the contagious stages of a communicable disease such as chicken pox, pink eye, strep throat, etc. may not be in care until the appropriate period of communicability has passed.

All staff HAVE received training in first aid and CPR/AED from a state-approved trainer. WE will follow standard emergency medical procedures for treating injuries. A head injury will be treated as a serious injury, and parents will be notified as soon as possible. All staff have a current certification in infant and child cardiopulmonary resuscitation (CPR) including training in the use of an automated external defibrillator (AED). There is not an AED on-site.

If there is a need for emergency medical treatment, 911 will be called and the child will be taken to the Salem Hospital in Salem, Oregon at the discretion and direction of the ER services provider if being transported by ambulance. Should an ambulance be needed, parents will be responsible for any costs. Parents will be contacted as soon as possible after contacting 911. If possible, WE will ask that your child be taken to the emergency medical facility that you designated on the child enrollment form. If ratios allow, one provider will accompany the child as capacity and ratios allow. It IS possible that your child may need to proceed with an ambulance and its staff without a provider.

All medication administered, accidents or injuries occurring during the time the child is in our care, marked changes in behavior or appearance and any observation of injuries to a child's body received outside of our care will be entered into the center's medical logbook and noted on a discovery report. As licensed child care providers, WE are required to report suspected child abuse or neglect to the local authorities.

I, the parent named _____ have read and understand this page of the policies. (Please sign)

Parent Fee Contract

Child's Name _____

Days of the week

Contracted Hours of the Day

Monday	_____ am to _____ pm
