

BOOK QUESTIONNAIRE

I am writing a book about life titled "*Greater Than Me, I Am: It's All About Me*", and your life experience may have much to offer readers. You may download a rough draft of what is written so far from my website, www.mikesministry.com, and then clicking on the "GREATER" tab at the top and then scroll down the page to download or view a pdf of the book. Please understand that what is written so far is subject to change as I work further into this project.

This book will contain real life experiences from various people, including myself. Your responses will be kept confidential. I will not associate your name with your contribution, but I would like to credit you for contributing in the back of the book – unless you opt out below. Also, if you wish to remain anonymous, just don't share your name with us. Further, if you don't want to rate yourself in the 6 major areas of life experiences, it is okay. Just please share some good decisions you've made on the subject matter and some not-so-good decisions you may have made.

This book will cover 6 major areas of our life experiences: Education, Health/Physical, Career, Finances, Relationships, and Spiritual/Emotional. We will discuss these 6 major areas as they relate to 3 major stages in our lives:

Ages 13-25

Ages 26-55

Ages 56+

You may choose to contribute as much or as little as you wish; or not at all. Also, I may use all of what you send me, part of what you send me, or I just may not have room in the book for your response, but I will still value it and your response may trigger other thoughts in the book. Regardless, I will credit you in the book (unless you opt out) and send you a free copy of the book when it is completed for your response. Please don't feel obligated to participate if you don't wish to and please share with others who may like to participate.

If you received a printed version of this and would rather have it digitally you can download it from my website as explained in the first paragraph above.

Please send your responses to the following questions to (your timely response is appreciated):
