

PACKAGING POWER. INDUSTRIAL SCALE. GLOBAL IMPACT.

OSAN Packaging delivers high-volume flexible packaging and advanced label solutions through precision manufacturing, integrated printing technologies, and globally aligned production systems.

**HIGH-SPEED
PRINTING**

Advanced printing technologies for high-volume production.

**MULTI-LAYER
STRUCTURES**

Innovative barrier solutions for maximum protection.

**FLEXIBLE PACKAGING
EXPERTISE**

Customized solutions for diverse markets and applications.

**GLOBAL SUPPLY
CAPABILITY**

Multi-region production and distribution network.

WE DON'T JUST PRODUCE PACKAGING.
WE BUILD MARKET ADVANTAGE.

BUILT FOR SCALE. DESIGNED FOR IMPACT.

OSAN Packaging operates at industrial scale, combining high-speed printing technologies with precision-controlled production systems to deliver packaging solutions that perform across global markets.

01 PRODUCTION POWER

- High-speed flexographic & multi-process printing
- Multi-layer film structures
- Scalable high-volume production
- Precision-controlled manufacturing flow

02 MARKET IMPACT

- Shelf-differentiating packaging design
- High-definition print clarity
- Structural and material optimization
- Consistent brand presentation across markets

PRODUCT PORTFOLIO.

PACKAGING SOLUTIONS BUILT FOR PERFORMANCE.

From high-barrier films to advanced label solutions, our portfolio is engineered to protect, promote, and elevate your brand across every shelf and every market.

01 FLEXIBLE PACKAGING

High-performance flexible packaging structures designed to protect product integrity and maximize shelf impact.

02 LABEL & SPECIAL SOLUTIONS

High-definition label solutions and special formats that deliver precision, durability, and brand distinction.

STRUCTURES THAT PERFORM.
PACKAGING THAT SELLS.

INTEGRATED. PRECISION. PERFORMANCE.

We combine advanced technology, skilled engineering, and strict quality control to deliver packaging solutions that perform consistently at every stage.

01 ENGINEERING SYSTEM

- **PROCESS CONTROL**
Advanced monitoring and automation ensure consistent output and accuracy.
- **MATERIAL OPTIMIZATION**
Engineered structures that balance performance, protection and sustainability.
- **PRODUCTION CONSISTENCY**
Standardized processes and skilled teams deliver the same quality in every run.

02 EXECUTION POWER

- **HIGH-VOLUME CAPACITY**
Scalable production infrastructure built to meet growing global demand.
- **QUALITY ASSURANCE**
Rigorous testing and inspection at every stage for total product reliability.
- **GLOBAL DELIVERY**
Efficient logistics and distribution network ensures on-time delivery worldwide.

SYSTEMS BUILT TO PERFORM.
EXECUTION BUILT TO SCALE.

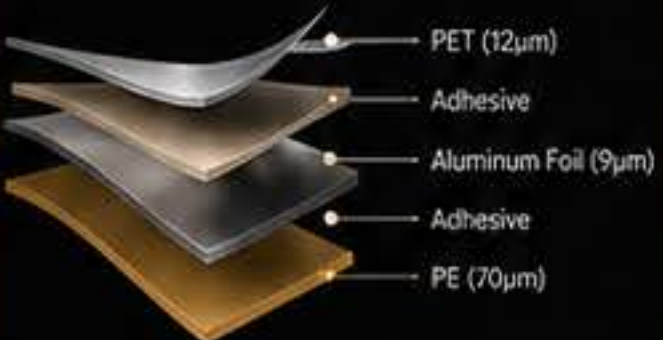

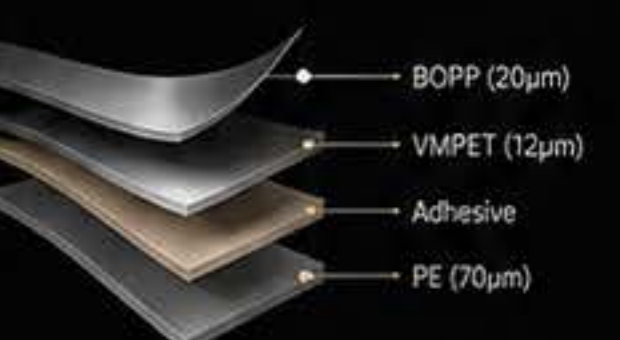

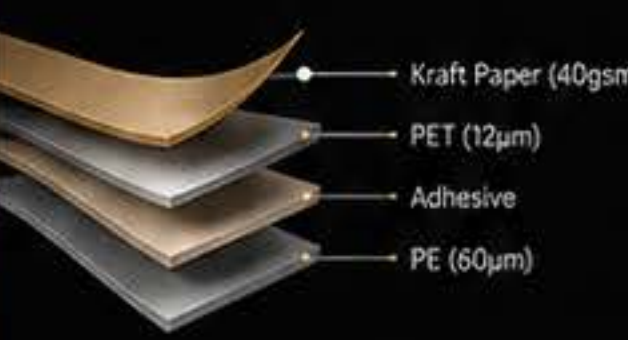

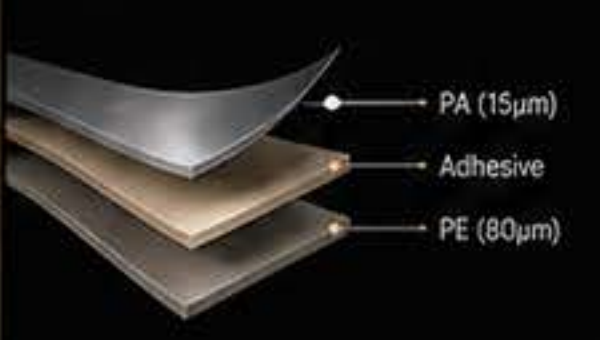

PRODUCT STRUCTURES.

**ENGINEERED LAYERS.
SUPERIOR PERFORMANCE.**

We design multilayer structures tailored to the specific requirements of your product. Each layer has a purpose. Together, they deliver protection, preservation and shelf impact.
