1

Market leader in ceramic
based potentiometer

5

Over 5 billion
potentiometer produced

30

Over 30 years of
manufacturing experiences

OUR STORY

Our story started over 30 years ago when our first potentiometer came off the production line. Since then, we have become the leading supplier of ceramic based potentiometers for global appliance, electronics, and power supply brands. The KX Sensor brand was established on our decades of manufacturing prowess.

WORK WITH KX SENSOR

KX Sensor provides full OEM and co-design capability for screen printed electrode (SPE). Our SPE can be used for biomedical analysis (e.g. HbA1c) and chemical analysis (e.g. heavy metals, pesticides).
