## Job Description/Overview

Our practice is looking for dynamic, self-motivated, culturally diverse and savvy clinicians who are committed to the pursuit of wellness for the underserved in our community.

Postdoctoral fellows have the opportunity to receive supervision and training from psychological experts in their respective specialties who believe diversity drives excellence.

Students will have the opportunity to receive training in at least two of four clinical tracks) the Gottman Method for couple's therapy, cognitive behavioral, interpersonal, and psychodynamic therapies.
