## Mobile Animal Surgical Hospital

### What is more Bad Ass than Saving Lives?

Being on the road to reduce the rate of homeless dogs & cats that end up in the Shelter System in the M.A.S.H. Unit powered by a Tesla Semi.

Over 50% of animals in the Shelter system are euthanized as there are not enough homes. We recognize the herculean efforts of Shelters, Rescues & community partners to find them fosters and homes. Our focus is to address the root problem to manage unwanted litters.

How bad ass would it be to roll into communities from SKID ROW to Coto de Caza in a Tesla Semi providing accessible & affordable veterinary services saving lives.? ~ Hillyer
