pureAir HVAC In-Duct Air Purification

Installed into your existing ductwork, pureAir HVAC features the same purification technology developed and used by NASA.

Active Radiant Catalysis (ARC®), our proprietary photocatalytic oxidation (PCO) technology uses energy to activate a catalyst, turning moisture into products that continuously clean your space.

Bipolar Ionization creates a plasma of electrical charges, ionization removes allergens and other pathogens from the breathing space.

The result is a reduction of allergens from pets, pollen, and smoke, as well as odors from mold, mildew and more..

Features & Specifications

- Active Air Purification; Easy to Install
- Distributes Purification Evenly Throughout the Environment Using Ducts
- Keeps Duct Systems Fresh
- 24/7 Reduction of Odors and Particulates in the Air
- LED Function Lights Confirm Operation

Applications

- Homes
- Offices
- Schools
- Day Care Facilities
- Nursing Homes
- Hospitals
- Veterinary Clinics
- Distribution Centers

Benefits

- Constantly cleans duct system
- Continuous air purification
- Reduces odors
- Minimal maintenance
