How event works.

All Shoppers and Vendors are welcome to attend QUARTERMANIA "AUCTION"

Each paddle that's bidding will bid the amount specified above.

Example: \$10-\$24 item is a quarter bid...you have 4 paddles, each have an assigned number. and you want to bid on each one. That totals \$1 to bid 4 paddles. **You raise** all 4 paddles and someone comes to collect your quarters.

Now its time to draw a number out of the number bag to see who wins the item.

If your number is called you win that auction item.

Now lets say you only want to bid on 2 of the 4 paddles, that's 50 cents and when the number is called out, it happens to be the paddle youre not bidding with, You do not win that item and we draw again. It's a good idea to bid all your paddles, for better odds of winning.

All numbers are entered into the bag according to the number of the paddle you buy, so if one is drawn that doesn't have a bid on it, we draw again until a winner is achieved. Then ALL numbers are returned to the bag for the next item up for bid.

Likewise A \$25 item will be a 2 quarter bid per paddle

A \$50 item will be a 3 quarter bid per paddle

A \$75 dollar item will be \$1.00 per paddle

The money collectors will make sure the correct amount has been given per paddle.

Bidding Paddles are RAISED HIGH until item is given to winner. Non-bidding paddles remain on lap or under chair.

**There is no shopping during the auction time.**

Vendors are welcome to bid.

Vendor will then get all the Quarters collected for their item before next item is offered.
