

MDF CABINET DOORS

DIY CABINET REFACING INC. CATALOGUE 2024

Custom Builds, Cabinet Refacing, Cabinet Matching

In comparison to Thermofoil, MDF Painted cabinet doors have more definition and visible detail- these are sprayed to finish in a cabinet specific Sherwin Williams paint. Painted doors have a smooth finish adding a touch of elegance to your space, great for projects that have medium to low wear and tear. Each of the 9 profile options can be matched with any of the 12 available finishes.
