

Shuri-Te Judo Basic Rank Requirements

You must participate in a class setting with students and have a qualified Judo instructor. This is the only way to develop and understand Judo and the requirements needed to implement and demonstrate your understanding of Judo at your current rank and abilities.

Judo curriculum will offer the technical names in Japanese/English translations. You may find different names and terminology at other schools. The names in this curriculum are believed to be the most widely used and accepted globally.

You will always begin and end class by bowing! Once class begins, you will warm up by falling or Ukemi (break fall techniques). Ukemi is a very important skill to master, Being able to fall and protect yourself builds confidence and conditioning.

There are two principles of Judo:

1. Maximum efficiency with minimum effort. (Seiryoku Zenyo).
Technique will overcome strength.
2. Mutual Welfare and Benefit (Jita Kyohei)

When practicing with a partner, you are giving him or her your body and relying on them to take care of you.

This is a level of trust that cannot be achieved without genuinely caring about your partner.

All ranks are at a senior level, no junior program. Rank is based on class participation. Competing in tournaments is not required, but will help with promotion. This curriculum focuses on judo techniques as it pertains to rank, time in grade for promotion.
