Installation Guide

TG13o5-o1CB Ambient Temperature
TG13o5-o3CB Ambient Temperature
TG13o5-o4CB Outside Temperature

Application Notes

- For fitment to **negative earth** vehicles **only**.
- Operating voltage: 11 – 17volts DC

Caution
**Disconnect The Negative Battery
Cable**
Prior To Any Installation

INFORMATION:

**Sender applicable to Outside and
Ambient Temperature derivative
Instruments**

CAI

Part Number	Description
TT6820-00	Outside Temp Sender
Loom Connections	
Green	Ign. switched 12V
Black	Ground
Red/White	Instrument Illumin +12v

Sensor Connections

White	To white/black on gauge loom
Red	Ign. Switched 12 volt
