

## SUSTAINABILITY POLICY

CmdrKat Consulting is committed to operating our business in a way which minimises impacts to the environment and community through the provision of sustainability, communications, and environmental management advisory services.

CmdrKat Consulting is committed to:

- Consideration of sustainability aspects during decision making including during procurement processes.
- Complying with our legislative, regulatory and policy obligations as well as the needs and expectations of our stakeholders.
- Demonstrating visible sustainability leadership by promoting sustainable transport and energy solutions in our business and advice to our partners.
- Actively seeking opportunities to build capability in our people, the clients we work with and the communities of practice we participate in.
- Prevention of pollution because of the services we deliver, the consequences of advice we provide to clients and through our supply chain.
- Monitoring our sustainability performance, seeking opportunities to continuously improve the way we do things.
- Implementing and maintaining our ISO14001:2015 compliant Environmental Management System.
