Hive Body:		
Select Pine		
	10 frame hive body is made from Select pine. This will provide one Deep Super. Handles are flush routed into all four sides. I use only Titebond III glue which is an exterior and waterproof glue. The boxes are joined together with a boxed end and secured with a quality fastener to provide maximum strength. Note: Frames and all other parts sold separately. This gives you the option to select just the boxes! If you have a custom combination of box sizes please select the individual box and quantity. All products come uncoated, it allows you to have a choice. Whether you choose to paint or coat in wax!	\$50.00
