

I was born and brought up in Kiev, Ukraine. Being a teacher was my life calling. As long as I remember, I wanted to teach. When I was little, the only pretend play I enjoyed - was a "Teacher." I also had another passion in my life - Music. After graduating high school in Kiev, I entered the Kiev State Music Academy, and, six years after, graduated as a Musicologist and Music History Teacher. I started to work at Kiev Music College teaching History of Music and working on my PHD. In 2002 I came to Canada and, after settlement and assimilation, decided to pursue a career in the Child Care Field. I obtained a Child Care Supervisor Certificate through Mount Royal University in Calgary.

I take every opportunity to polish my professionalism by attending workshops, conferences, and training offered through several venues dealing with children, families, and immigrant families.

At this time, I work at "Kidzclub" at Sacred Heart as a Program Director. I've been taking care of children at Sacred Heart School for over 6 years now.

I try to make sure that our children have quality care, enjoy variety of experiences and can learn through play. I'm proud to say that our licensing inspector made a comment that our program is one of the best she has seen.

Truly Yours,

Tetyana Sokolova
