## Message from Public Works

Fire Hydrant flushing has begun. This will take about 3 weeks to complete in areas where fire hydrants are flushed, residents may notice a temporary discoloration of water and/or a temporary reduction in water pressure. The discoloration is not harmful and can be resolved by running cold water through a faucet until any sediment is flushed out

**Thank you shout out to Prairie Soil Services and Ken Nystedt for the Donation of the use of their Equipment and all the time and handwork put in by Ken.**

**Norquay has some amazing business, organizations and individuals that help make our community fabulous.**

**Thank You!!!**

## NEW SIGNS AT THE SCHOOL

**Thank you to the SGI Provincial Traffic Safety Fund Grant we have two New Signs at the school that alerts motorists that they are in a school zone and pedestrians are crossing the street**

## Building Inspections

**The Town has a building inspector. All structural work requires a building permit and the building inspector will review plans and do a personal inspection as required. If you require any information, please contact the office.**
