

AUGUST

Twin Oaks Nursery

2107 Hwy 691 ~ Denison, Texas

FERTILIZE:

- **Lawns:** *Time for Step #5 – Bermuda Grass Fertilizing / August 1st.*
Using: “Twin Oaks” Nursery 21-0-14 Fertilizer
- **Roses:** Use “Rose Glo”, or Fertilome Rose Food with Systemic Insecticide
- **Container Plants:** Use ColorScape or Water Soluble Fertilizer for continuous blooms.

PLANT:

- Wild Flower Seed Late in the Month
- Crimson Clover Late in the Month
- Blue Bonnet Seeds Late in the Month
- Vegetables: Early in Month – Bush Beans, Cucumbers, Squash, Corn
Mid Month - Cabbage, Broccoli, Cauliflowers, Brussel Sprouts
Late Month - Leafy & Root Vegetables
- See our Fall Planting Schedule

PRUNE: Prune Roses slightly, and Fertilize to Promote Fall Growth & Blooms
Prune & Deadhead Perennials as Needed (Often Deadheading will encourage new blooms)

Water: Water established plants deeply, and less often. Established lawns, shrubs, and trees, may need a deep watering about once per week Depending upon weather conditions. **DO NOT** rely on your sprinkler system to provide enough water for newly planted Trees & Shrubs.

- **Use Gator Bags or Drip System** to help keep newly planted Trees & Shrubs properly watered.

Watch Out For:

- Chinch Bugs – In hot sunny areas of St Augustine, It will appear dry ... but water doesn't help.
 - Apply “Turf Ranger” (Granular) and water in.
- Aphids – Look for a “Honey Dew” residue falling in droplets. Black soot may also be visible on leaves.
 - Apply Fertilome Tree & Shrub Drench, or Broad Spectrum Insecticide.
