## SCOPE OF WORK

This project will consist of the installation of a video surveillance system consisting of 4 cameras to be placed in a manor to cover as much of the driveway, gates, and mail center. Tracker Security has chosen a full IP system for superior video quality. All cameras will be routed to a network video recorder (NVR) via the existing network. The cameras will not be connected to a monitor but remote viewing via mobile devices (network dependent) and desktops will be provided. Tracker Security will warranty the installation and parts of the camera system for 5 years from the date of installation.

## NOT INCLUDED

This installation will require the use of power outlets within the area dedicated for the video system and remote building locations. Tracker Security will attempt to utilize existing power outlets; however, additional outlets may be required. Tracker Security is not licensed for electrical work, and as such this proposal does not include the installation of any required electric outlets. All required electrical outlets must be installed prior to the installation of the camera system. High Speed Broadband Internet and port forwarding are required for the ability to view and record video feeds offsite. Tracker Security is not responsible for any issues related to, or resulting from internet connection issues. Also excluded is any and all drywall repair, electrical repair, roof repair or reconstruction or replacement of any items removed for the placement of cameras, any and all networking required to allow remote and onsite viewing of cameras through the existing network.

## COMPANY PROPOSAL

We, Tracker Security LLC., propose the above scope of work, to be completed within 30 days. An initial material deposit for the amount of \$3,852.05 shall be collected prior to start of the project, and the remaining balance of \$3,852.06 shall be due within 30 days of completion. Listed price valid for 30 days from receipt.
