Mar. 07, 2022

MINNEAPOLIS, Mar. 7, 2022 — Award winning Rock band G.I.V.E. will release their new E.P. on Record Store Day, April 23rd. Entitled *UNNATURAL*, the band's third release takes listeners on a chaotic journey of 6 meticulously mixed songs from Grammy Award-winning producer **Toby Wright** (Alice in Chains, Metallica, KORN, and more) and reinvents yet again what Rock sounds like.

UNNATURAL represents the Minnesota band at their best, their most punishing, and most unnatural. The body of work twists and turns through crushing guitars and haunting blues-melodies like a demonic roller coaster.

The E.P. was mastered by [Andrew Mendelson](#) (Neil Young, The Lumineers, Willie Nelson, and more) specifically to bring a different approach to the heavy, blues-rock sound and to keep the listener always guessing what's coming around the next hook-laden bend.

G.I.V.E. recorded the E.P. in L.A. and Minneapolis over the span of a year and Toby Wright ripped away all the noise to give it a raw, yet enigmatic sound that only he can create.

**UNNATURAL track listing:**

1. A Little Bit
2. I'm Dyin'
3. Drama Queen
4. Love
5. Shame
6. Flowers
