

CODIGOS

SACRED CODES: Numbers to heal and attract everything you want in life

Codes are universal commands we can use to direct our energy towards calling something in, removing or healing something, protecting us, connecting with the spirit realms, light beings and more.

The codes must be repeated 45 times each. 45 is a manifestation number and so it creates a force to connect and laser-focus on what the code is divinely designed to do. They are meant to be a praying tool. They must be recited with hearth, faith and knowing.

They can be said as one digit (ie, 10243 - ten thousand two hundred and forty-three), one by one (one, zero, two, four, three), in pairs (one-zero-two, forty-three), as you wish! You can recite the codes out loud or in your head. There are no rules :)

For newbies, only use a few codes at a time so that your command and energy are concentrated in the positive polarity.

The codes can also be used for someone else but only if you receive full consent first.

Remember, karma is always watching, and you deserve it more than ever <3

Forgive the lack of organization and Spanish to English google translation. Mark down the ones you need, print n share!
