

# PICKUP DIVISION

## **PICKUP 4K uses the General rules with the following exceptions:**

The power source may not produce more than 15.5 volts at any time during the run with or without the vehicle running, with the Exception of Pickup Unlimited which allows up to 18v.

OEM interior panels may be upholstered or painted, but may not be modified in any way

Custom consoles will ONLY be allowed in the Pickup Unlimited Class of the Pickup Division. Door panel build outs to add midrange speakers are allowed as long as the OEM panels are used, no more than 50% of the OEM panel may be modified. The seats, doors & windows must function properly. Custom door panels must house at least one set of midrange speakers. A maximum of one pair of 8" or a single 10" midrange speaker(s) plus the stock location will be allowed per door.

## **Woofer Enclosures are only permitted in the following locations for the Pickup 4k Non-Clamped Class:**

**Crew Cab Pickups:** Behind the rear seat or under the rear seat only (seat bottom must remain folded down in the rest position during testing). Woofer enclosures behind the rear seat must not vertically exceed the rear back lower window line. Woofer enclosures under the rear seat bottom must not protrude forward past the front leading edge of the seat bottom, but may be wider than the seat bottom so long as they do not impede the rear doors from closing properly. The rear seat assembly must not be altered in any way and must retain OEM positioning and be secured in place. All portions of the audio system, with the exceptions of front and rear stage midrange speakers, must be located behind the front-most edge of the rear seat bottom.

**Extended Cab Pickups:** Behind the rear seat or under the rear seat only (seat bottom must remain folded down in the rest position during testing). Woofer enclosures behind the rear seat must not vertically exceed the rear back lower window line. Woofer enclosures under the rear seat bottom must not protrude forward past the front leading edge of the seat bottom, but may be wider than the seat bottom so long as they do not impede the rear doors from closing properly. The rear seat assembly must not be altered in any way and must retain OEM positioning and be secured in place. All portions of the audio system, with the exceptions of front and rear stage midrange speakers, must be located behind the front-most edge of the rear seat bottom.

**Regular / Standard Cab Pickups:** Behind the front row seats only. Enclosures may protrude forward of the B-Pillar, but may not extend forward past the rear hold-down bolts of the driver seat bracket assembly. Woofer enclosures behind the front row seat must not vertically exceed the rear back lower window line. All portions of the audio system, with the exceptions of front stage midrange speakers, may not extend forward past the rear hold-down bolts of the driver seat bracket assembly.

Rear seat backs may be folded over for testing but may not be removed from the vehicle. Amplifiers may be attached to the seat backs and folded down during testing. In such cases the seat must be able to return and lock into the factory position after testing.

**NO MODIFICATIONS to the vehicle interior forward of the B-Pillar are allowed unless otherwise specified. No portion of the audio system or supplemental electrical system will be allowed in the bed of the vehicle.**

**Custom Center Consoles ARE ALLOWED in the Pickup Unlimited Class of the Pickup Division but may not vertically exceed the front side window line, and also may not exceed backward past the front leading edge of the rear seat bottom. In the case of a Standard or Regular Cab Pickup the console enclosure may extend to the rear wall so long as no portion of the console exceeds vertically past the front window line. Regarding Extended Cab or Crew Cab Pickups, Console enclosures may not encompass any space under or on top of the rear seat, or any space behind the front seats with the exception of the center-most portion of the rear floor where the Console may extend to the rear seat cushion.**
