

PROJECT X DIVISION

This Division holds its own rules and no other sanctioned rule sets apply.

Moto Defined: Any street legal two wheeled commercially available vehicle. Examples: Motorcycles, mopeds, scooters, minibikes, etc.

Offroad Defined: Any commercially available 4-wheeled off-road vehicle. Examples: Four-Wheeler, Mule, ATV, UTV, Golf Cart, etc.

Trike Defined: Any street legal or offroad vehicle with an open-air cabin utilizing a three-wheeled drive track. Examples: Slingshots, T-Rex, Motorcycle with Side-Car, Spyder, etc.

Jeep Defined: Any open cabin street legal full size SUV. Example: Jeep Wrangler, etc.

Judging Process:

Competitors must be 16 or older and legally licensed to drive to enter. It is the competitor's responsibility to maintain financial responsibility of their competition vehicle. All vehicles will enter the judging lanes safely under their own power. Engines / motors must be turned off once in the test lane and stay off until testing is complete. Once testing is completed, the subject vehicle must start normally under its own power as well as exit the test lane in the same manner, otherwise a score of zero will be rendered for that session.

Testing Criteria:

Sound testing in the Sound Chopper Division utilizes the peak average SPL score of any 60 second music track the competitor wishes so long as the music played is commercially available. Competitors must provide their own music. The microphone sensor will be secured to the USACi approved freestanding jig and must be no less than three feet from any speaker on or in the subject vehicle.

No external charging sources or supplies are allowed as all batteries, capacitors & stators must be native to the vehicle. Only traditional audio sources may be used such as radios, Bluetooth transmitters and receivers, etc. Excessively profane music being played will result in disqualification. Maximum allowed DC voltage may register no higher than 15.5 vDC throughout testing.
