

1. Rod rests positioned so rod tip is close to water surface and reel falls readily to hand.

2. Landing net readily to hand, in this case using the clump of sedge to raise it from the ground, otherwise consider using a rod rest.

3. Bait tubs in easy reach.

4. Tackle box easy to reach.

1,2,3,4 as per previous slide.  
5. Rod rest positioned for tip rod.

Showing angle of tip rod to water. Chair can be turned more to face the rod rest and makes striking easier. Rod at same height as float rod in previous slides.
