About me

I'm passionate about creating and exploring new things. I enjoy being in nature, running, hiking, and walks with my dog. I love photography and snapping images of the beauty of the outdoors.

Recently I graduated with a bachelor's in Information Technology with a focus in Web Development and Graphic Design. During this time I was able to expand on my creativity skills and learn to create web pages and various other designs. After graduating I came across the User Experience role and am taking the time to learn about it and how it aligns with my skills and goals.

Skills & expertise

Education:

- Bachelors in Information Technology
- Certification in Web Development
- Studied User Interface Design, Adobe products, Digital Design, System Analysis, SQL for Data Management, and Infrastructure.

Volunteer:

- Former Ad Services Mentoring Committee & People Development Board member
- Administrative Assistant Committee - Marina Heights
- Former Summer Camp Counselor: Camp To Belong Oregon for Foster Children

Background:

- Administrative Support
 - Supported entire tax firm
 - Supported two Claims Managers simultaneously and their direct reports located in multiple states
 - Support eight Technology Directors and their teams
- Utilize GitLab using HTML and Basic Syntax markdown language for Whiteboard posts.
- Run and analyze department data regarding statistical analysis of productivity for leadership.

Greywood Trail Website

— — —

This course project consists of creating an adventure events website, which allows customers to see, plan, and schedule their next adventure.

The website consists of five pages. The main page, an activities page, a contact page, a general store page and the design page. The design page shows the wireframe design process.

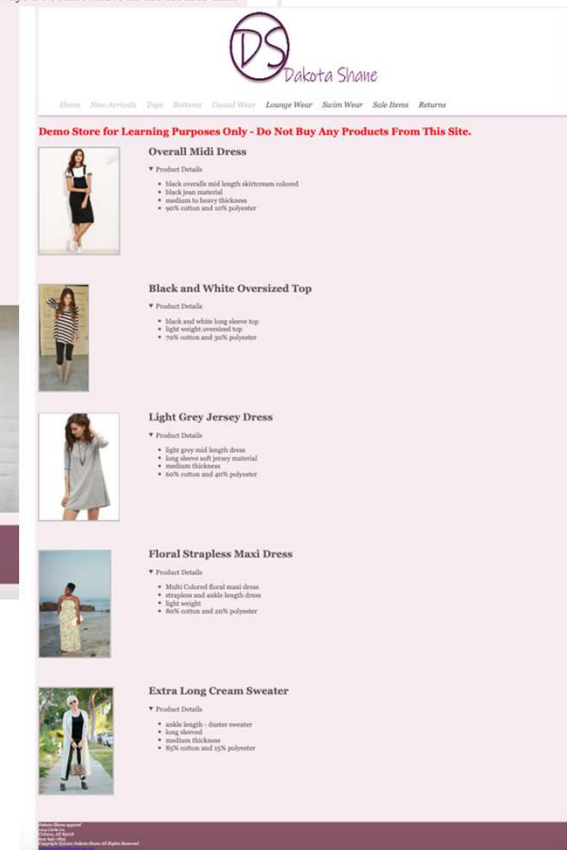

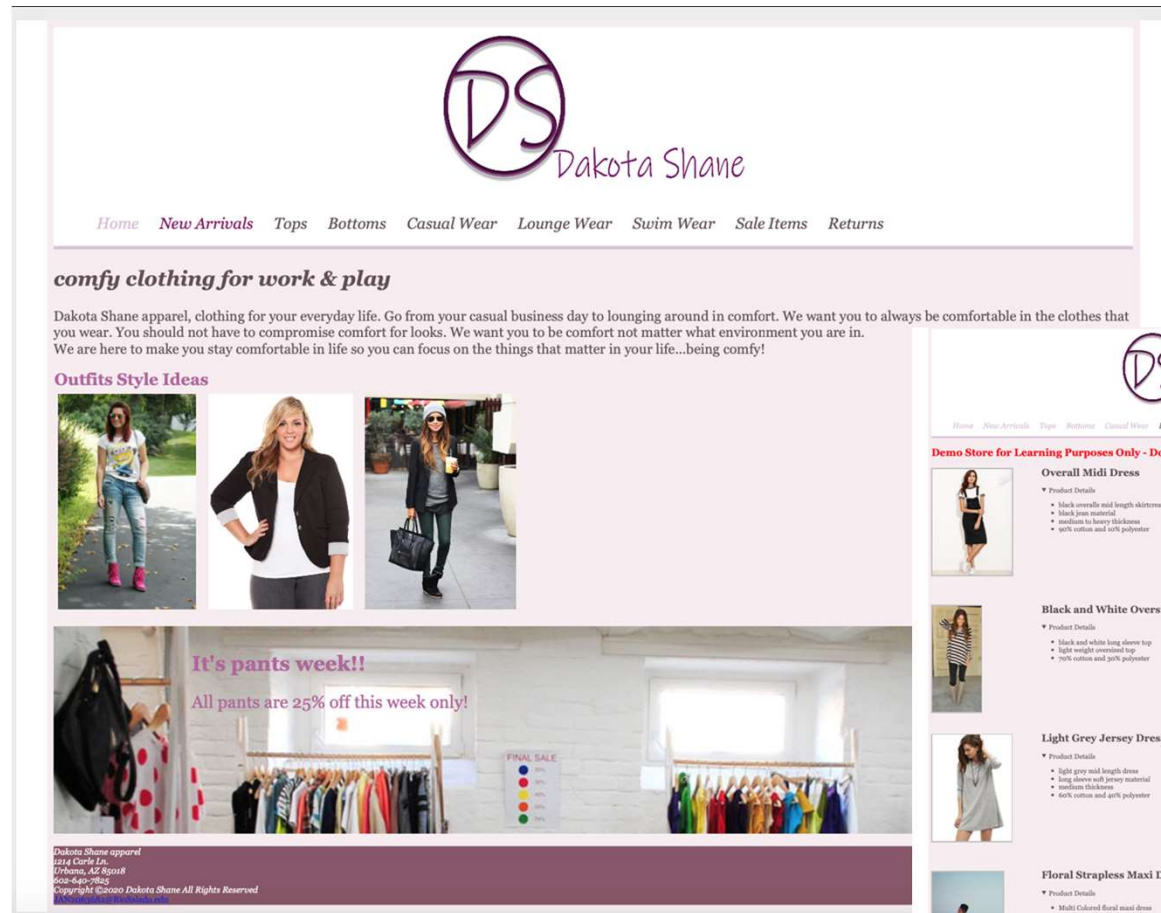

Dakota Shane Website

— — —

This course project consists of creating a website for a clothing company utilizing the e-commerce aspect of online shopping. Allowing the business to let the customer shop online.

The site consists of eight pages. Which includes a page for refund requests in a form filled setup.

Oahu Vacation Website

Oahu is one of the islands of the Hawaiian Islands. The capital is Honolulu and is home the World War II memorial, USS Arizona. The capital of Oahu is Honolulu. Oahu is 44 miles long, 30 miles wide, 112 miles around. Honolulu is considered the largest city because it is 1500 miles long. The north shore of Oahu in Laie made the Hang Loose sign (shaka sign) popular. The largest luau in the State of Hawaii is Paradise Cove Luau, which cooks 127.5 tons of kalua pig each year for it luaus.

Storyboards & Process Planning

This project was to create an application for a company. The claims user tool was selected. These two images represent the planning process and storyboard mockups that begin the planning process of creating a user friendly claims application.

Storyboards & Process Planning

This continues the process of the beginning stages of creating a claims application for processing claims. Providing wireframe examples of what the user interface may look like. This demonstrates the planning for the various pages in the application.

The wireframes illustrate the layout for four different screens in a claims application:

- Claim Processing System - Main Screen:** Features a title bar, a subtitle 'Main Screen', and a central instruction 'Enter data into one or more fields to locate claim'. Below this are four input fields: 'Enter First Name', 'Enter Last Name', 'Enter Claim Number', and 'Enter Phone Number'. A 'SUBMIT' button is positioned at the bottom.
- Policyholder Information - Policy Holder Main Screen:** Includes a title bar and subtitle 'Policy Holder Main Screen'. It contains several input fields for personal details: 'First Name', 'Last Name', 'Phone Number', 'Mobile Number', 'Physical Address', 'City', 'State', 'Zip Code', 'Mail Address', 'City', 'State', 'Zip Code', and 'email address'. Action buttons for 'Edit Claimant Information' and 'Save Changes' are at the bottom.
- Claim Details:** Starts with a 'Claim Description:' label and a large text area for the 'Description of Claim field'. Below this is a 'Claimant Information' section with fields for 'Insurance Company', 'Policy Number', 'Contact Name', 'Contact Number', 'First Name', 'Last Name', 'Phone Number', and 'email address'. It also includes 'Edit Claim Information' and 'Save Changes' buttons.
- Claim Loss Page:** Features a title bar and subtitle 'Claim Loss Page'. It has a 'List of damage/lost items:' label and a toggle for 'Items are listed separately'. A table with three columns: 'Item Descriptions', 'Purchase Cost', and 'Purchase Year' is shown with three numbered rows (1, 2, 3). A '+ Click to Add More Lines' link is below the table. At the bottom are 'Edit Claim Loss Page' and 'Save Changes' buttons.

Logo: Photography

This logo was created to represent this person's passion for photography while utilizing their own image. The goal is for the customer to have a personal brand logo.

Logo: Golf Outing

The 20th Anniversary of a golf soiree. The customer wanted to use their embroidered patch as a logo for their invitational pamphlet handout.

Photography

Won a photography award and had my work displayed at Corporate A-1 hallway for many years.

Featured image in State Farm's employee magazine.
