Creating an interesting, informative, and easy-to-read magazine article is something that every publication needs to know, regardless of their specific themes and topics. Usually, a magazine article can discuss trending topics and themes, or more specific ones such as geography, cuisine, fashion, music, and other fields in interest. Nonetheless, all of these magazine articles need to abide by the principle of writing the latest events in order to make the readers interested with the recent events. Furthermore, a magazine article sometimes needs to include interviews with the interviewees to get the most accurate information.

## In this issue,

we'd like to interview the current global J-pop sensation Itsuki Takahashi, known internationally as KENKYUSHA, regarding his humble beginnings as a son of the owner of a modest sushi restaurant in his hometown and his development as one of the most prolific J-pop artists in the early 21st century.
