

Dear Parents,

Your child's day care centre (KiTa) has entrusted Quecc GmbH with the external evaluation. This means that the pedagogical work is assessed by external experts based on observations, interviews and surveys. We need your help here. How do you assess the work of the KiTa? What strengths does the KiTa have and what need for change do you see? The results will be used to appreciate what has already been achieved and to make concrete recommendations for the further development of the educational work. This survey is of course voluntary and anonymous for you. The results will only be used for feedback to the KiTa and will not be passed on to third parties.

Thank you very much for your participation.
