Classic Vibrators- \$40.35

Key features: This is the classic type of vibrator intended for those who prefer internal stimulation. Battery powered. Great for G-spot stimulation but may also be used for clitoral stimulation.

Tips on vibrator use:

- Be sure to lube up. Warming jelly, AstroGlide, or other water based lubricants, available at most drug stores make excellent lubes.
- You may use a vibrator alone or incorporate it into your love-making with your partner.
- Clean your vibrator after each use with soap and water (not plugged in), or with a sex toy cleaner.
