WHY APHEX

The Aphex™ product line uses an innovative ionized water-based formula that kills a wide array of bacteria, without the negative side effects of alcohol. Laboratory tests have proven it's potency against bacteria such as e-Coli, H1N1, MRSA, and C-Diff without damaging or drying skin, rather this non-flammable formula assists in the healing process by keeping wounds hydrated. In contrast with alcohol-based hand sanitizers, which cease killing germs when dry, our laboratory tests have shown that Aphex™ products continue killing germs for hours after their application.

Aphex™ BioCleanse Systems has developed a synergistic chemical nanotechnology relationship where the lightest element on the earth – Hydrogen – in its monatomic form (H1) creates a chain with Quaternary Ammonia Compounds resulting in an efficient non-toxic germ killer.

OUR MISSION

To save lives and ease the burden of illness by making the world a safer and healthier place to live.

We vow to provide America with locally-made, environmentally friendly products with the safest and most effective sanitizing solutions on the planet. Every one of Aphex®'s

products is produced in the United States of America, and each one comes with outstanding 'green' credentials.

We want Aphex® BioCleanse Systems' products to be the trusted solution in every household.

OUR EXPERIENCE

Aphex® has established a well-founded company based on cutting-edge, germ-killing products. These products are free from alcohol, and Aphex® is patent protected on the formula.

Alcohol harms the skin, it is flammable, and it has side-effects if ingested. Developing our alcohol-free formula allows Aphex® to deliver products that kill dangerous germs, but which also promote healthy skin. This benefit is not something that can be claimed of alcohol-based products.

OUR REACH

Aphex BioCleanse products are all produced in the United States. Aphex® BioCleanse Systems is positioned to service US and Canadian customers quickly and efficiently. Our Aphex® products are widely distributed giving our brand an international presence.

APHEX™ INDEPENDENT LAB TEST DATA

All Aphex® products undergo independent laboratory testing. This independent testing is done on a continuous basis and is part of our overall quality control process. This process ensures that Aphex® customers get the highest quality of product, something they have come to expect and rely on.

Laboratory testing is just one part of Aphex®'s overall testing system. We develop protective products and systems for a variety of industries, with every one undergoing robust and rigorous testing. This rigor allows Aphex® to stay at the forefront of providing these critical items.

**LABORATORY TESTING, CLINICAL REPORTS,
PATENTS AND MONOGRAPHS ARE AVAILABLE
UPON REQUEST**

**APHEX IS FORMULATED TO
BE GENTLE ON THE SKIN.**

Aphex® helps the body heal by providing an environment that supports the natural healing process. Dry skin, when exposed to alcohol-based products, will crack and peel expose wounds to bacteria that can lead to infections. Our hypo-allergenic, non-drying, water-based formula keeps wounds hydrated without interference from harmful bacteria. Aphex hydrates and moisturizes, forming the Good Skin Effect, which maintains effectiveness for hours, even when dry.

**THE GOOD
SKIN EFFECT**

THE CLEAN SURFACE EFFECT

- Kill germs on all surfaces
- Aphex® products have no odor.
- Nonflammable.
- Will not bleach surfaces.
- Leaves no sticky residue or haze.

DERMAPHEX® KILLS FASTER, KILLS MORE, AND LASTS LONGER THAN THE BEST ALCOHOL-BASED HAND SANITIZERS ON THE MARKET TODAY.

DermAphex® is a water based hand sanitizer designed to moisturize skin while effectively killing 99.99% of germs without the side effects of alcohol. Powered by nanotechnology, DermAphex® continues to kill germs hours after drying.

The Aphex water based Hy-IQ™ solution in test results has been proven effective against Coronavirus, e-Coli, Salmonella, Candida Auris and c-Diff. Hy-IQ™ is safe and proven not to damage or dry out the skin.

IN AN INDEPENDENT LABORATORY TEST, DERMAPHEX® WITH HY-IQ™ KILLED 120 TIMES MORE GERMS IN 30 SECONDS THAN EITHER PURELL™ OR GERM-X™, THE TOP NAMES IN HAND SANITIZERS.
