RE: Wooden It Be Nice - Reference

To Whom It May Concern:

This letter is written in strong recommendation for Wesley Surritt, and his company Wooden It Be Nice, LTD. Most recently, we completed a 158,000 square foot Walmart Super Center in our Settler's Crossing shopping center, in Salem Indiana with WIBN.

Throughout the project, from estimating, to contract negotiations, to execution of the work, Wes and his team have been consummate professionals. WIBN were awarded metal stud framing, drywall, rough and finish carpentry, millwork, insulation, and ACT ceilings. For us, WIBN is a one stop shop that consistently performs and handles all aspects of their dealings with courtesy and professionalism.

Wes and his team provide very detailed estimates, descriptions and costs for inevitable extras that surface on any project. WIBN has never told us "this isn't my responsibility" or "this is not in my scope of work" but have always projected the attitude of "Let's get this issue resolved."

This is our third Walmart project with Wes and WIBN, and the success of our partnership with them has made all three of these projects successful. If Wes says he'll do something, he will get it done. If you are in need of quality tradesmen for a project, I urge you to meet with Wes Surritt, and Wooden It Be Nice. I am sure that you will be impressed and delighted with their performance.

Sincerely,

A handwritten signature in blue ink, appearing to read "DJZ", is written over the word "Sincerely,".
